Personal statement

A current student at Staffordshire University. I am currently in my second year of a sandwich course studying B.Sc Hons Web Development, with a 'Foundation Year in Computing' already completed. I am looking to secure a placement spot at a technology and web orientated company where I believe my skills can be best put to use, while also developing them further in a practical environment. I hope to make a positive impact and be a valuable asset to any workplace.

Key Skills

- Good knowledge and grasp of Web Technologies such as HTML, SASS, PHP and Javascript.
- Knowledge and previous use of image manipulation software such as Photoshop.
- Very good knowledge of Windows OS and the Microsoft Office suite.
- Use of Ubuntu and UNIX command line.
- Excellent communication skills both verbally and written.
- Work very well within a team environment, or individually.
- Punctual with good time management skills.

Employment History

- Computing – B

AS-levels:

- General Studies – A
- Geography - D

The Kingswinford School

(September 2005 – June 2011)

9 GCSEs, grade A-C, including Maths, English, ICT and Sciences.

Hobbies & Interests

My hobbies are mostly all relevant to technology, or the 'Internet of Things. My hobbies are limited in number, but I am very passionate.

My main hobby is programming and development. With my recent interests being primarily focussed on website design and development, as relevant to my chosen degree. While experience with Java is limited, I have a decent working knowledge of the language, as I also studied the Intro to Software Development module at University.

Another of my personal interests and something I am highly passionate about, is e-sports. I have never been a physical or sporty person, yet my love for gaming and competitive environments stretches back to my childhood. Combining the two I found e-sports. I have competed in regional, national and international tournaments for the game 'League of Legends' and have also played representing Staffordshire University. Through this I am able to constantly improve my teamwork, communication and social skills.
